Open Water Diver Certification Courses

Open Water Diver

Your first step into the beautiful underwater world is your Open Water Diver training. **Our maximum class size is only eight students** so you get more personal attention! We believe that effective instruction can only be achieved with these class sizes. In this manner you will have ample opportunity to practice the required skills and become comfortable in the water prior to your first excursion to the real world of diving. We offer monthly classes during the spring and summer and we offer private and semi-private instruction as well.

There will be classroom study to learn the academic portion of scuba diving **and** pool instruction to familiarize yourself with Scuba equipment. Upon successful completion of the academic and pool portions, you will have two full days of diving in an "open-water" setting to receive your certification. Certification is not guaranteed! You must pass a written exam and demonstrate certain skills in an open water environment before you will receive your certification card.

Class Includes:

All education materials, use of all SCUBA gear including mask, fins and snorkel, wetsuit, tanks, etc for the open dives, and all certification fees.

Minimum Age: 16

Class Fee: \$300.00

Sign Up Early! Enrollment is limited to EIGHT students!

Class 1 : (Tuesdays), May 8th, 15th, 18th, 22nd, 24th (Thursday) and 29th (Tuesday) - 2012
